ALENANDRIA AND MANUFACTORIES .- The Lyochburg Advance says: There are indications which show that Alexandria may yet become a great city. Manufacturing will give it a grand start, for it has advantages in this direction that few Southern cities possess. It is within a few miles of the Capital, the greatest retail market in the United States. It is at deep water and already has considerable commerce and trade. it is a Virginia city on the border, always true to the State, with full railroad facilities. Its cipital is increasing, and with an extra amount of vim it may be to us further South, especially in Vuginia and North Carolina, all that Bil imore has been. It has been our plaster market, is ean and ought to be our fertilizer market. The greatest joy of this season is the moving of the winter's store. None of the other pleasures of May time or spring house cleaning can compare with this event, which all the tamily look forward to with intense expectation, and which pever fails to put all in the best of hamor, by having them stored away at STANS-BURY'S CENTRAL STOVE HOUSE, you will save much annoyance, and have them in good order to put up when the cold weather comes. THE DECORATION ceramonies at Atlicaton Isterday were numerously attended. After the decoration of the graves, the procession marched to the ampitheatre, where the services were held. Among those seated on the grand stand were the President, Secretary Hant, Secretary Windom, Postmaster General James, General Sherman and General Meigs, After the reading of the original poem by W. W. Granger, Mark II. Dunnell, of Minnesota, was introduced, and delivered the oration.

THE WATER SUPPLY .- A report that the water from the reservoir was shut off on Suaday morning is altogether erroneous. Paudence and economy dictate that the valve in the outlet main should be open at all times in order to prevent additional friction and to admit the passage of a sufficient quantity (I water to surply the usual wants of the city. The water has never been cut off but three times since the establishment of the works, and on each of these occasions due notice was given by the compary.

THE NORFOLK STEAMERS, - A trip to Norfolk on either the Lady of the Lake or George Leary is one of the most pleasant excursions a person can take. Though the fare on the steamers from this city to Norfolk has been increased considerably above the figures charged last season, it is still less expensive to go to Norfolk by them than to go to Baltimore by tail and then take the Bay Line of steamers.

SHOT IN THE BACK,-Yesterday evening Tromas Robinson, who was driving a party of our pegro men in a wagon into Washington. from a trip to the country, was shot in the back by one of the party. The four men then attempted to escape, but were arrested. None of them admitted having shot Robinson, but charged each other with the crime. Robinson's would will hardly prove fatal.

INJURED IN A RAILROAD ACCIDENT. - In the list of injured persons by the accident yesterday afternoon to the fast mail train at Trenton, N. d., the name of W. H. Frententhal, of Wash legton, appears, which is doubtless intended for W. H. Frudenthal, a native of New York, and for some years a resident of this city, but now of Washington.

Mr. George Steueroagel, after trying in vain to stears a place for him, put him to work in his cetablish. meat on Royal street. Taking a fancy to the boy, Mr. Steueraagel determined to keep him. last night he appropriated Mr. Steuernager's pocket book, containing \$61.16 in money, and a check for \$4 and disappeared. PROFESSIONAL CARDS. CARD-It should be generally known that A CARD-It should be generally known that persons so unfortunate as to lose one or more of their teath need not wait weaks and months for artificial substitutes and endure inconvenience, disagreeatl) changes in voice, facial expression, &c., but may have artificial teeth made before and inserted immediately after extraction of their natural teeth. By this mode a better adaptation, a more pleasant expression and a nearer approach to mard preserv-ing the natural harmony of the features are socured, and very much of the pain and difficulty experienced in learning to use teeth are also avoided. I have practiced this mode successfully for seven years, and having introduced it here, would be glad to refer any one interested to pa-tients who know ofit from experience. In treating the natural teeth my object is to preserve every one that time, patience and modern methods of treatment can save. The use of arsenic in destroying exposed nerves is condemned by the more enlightened of the dental profession on account of its turning teeth dark, inducing ab scess and finally the loss of the teeth. The nerve pulp, which is the source of life to the tooth, should always be treated, when exposed, with a view to its restoration to health. I use no cheap alloys for filling; my fees are muc 1 less than are usually charged for the same class of work.

We have a very large stock of Boys' and Youth's School and Dress Shoes of all the new styles, which are warranted to give satisfaction, and will be sold much cheaper than they can be bought in this city or Washington; it will repay you to examine these goods.
